The screenshot shows a web application window titled "Weather App". At the top, there is a blue header bar containing a dropdown menu labeled "Select city...." and an "Update" button. Below the header, the main content area is divided into two sections: "Now" and "Location". Both sections currently display "No infor". The "Now" section has input fields for "Description:", "Pressure:", "Humidity:", and "Wind speed:". The "Location" section has input fields for "Country:", "Longitude:", "Latitude", and "Date:". A modal dialog box is open in the center of the screen, displaying the message "Vui lòng chọn thành phố." (Please select a city.) with an "OK" button. The dialog box has a close button (X) in the top right corner.
